

*So here is the tennis clubs wish list;*

- To have a direct longterm lease off the Parish Council to enable us to go for greater funding options in the future to build the club*
- Have our own pavilion, with toilet and changing facilities with viewing area of current courts 1&2.*
- A 3rd court running adjacent to court 1*
- New lights*
- Current Court 3 resurfaced.*
- Electronic key pads to all courts (as a registered club with LTA the tennis club already have access to Clubspark (on-line booking system which can be linked to an automatic gate opening system)*
- Rebo wall (like a hitting wall on the Muga court but more realistic for tennis) can be build on the back end of a tennis court.*
- A bubble over courts 1-3 providing indoor facilities during the winter.*
- Bike racks to promote locals cycling to the club.*
- Review the opening times of the facilities*
- More parking*

*Clearly this is all blue sky thinking! Give us a shout if you want to chat about it all.*
